# PRODUCT OVERVIEW 2022

***silco*** PERFIN.

EN

# Quality has only one name

Silco is a specialised producer of car refinishing materials and innovative bodyshop products.

More than  
**40**  
countries

More than  
**20**  
years of  
experience

More than  
**1000**  
products

## WHEN IT COMES TO THE PRODUCT QUALITY, WE NEVER COMPROMISE.

With the support of leading manufacturers of raw materials and experienced automotive experts with whom we develop top-class products, you will be able to work one step ahead of the others: The putties-bodyfillers, primers-fillers, clear coats, thinners and other products are the result of our own development and carefully controlled production. All these grants you the access to new, proven, productive and cost-effective material, used by many loyal customers of Silco products.

Renowned  
raw material  
suppliers

Precise control  
of raw materials

Own product  
development

Own  
production

Careful final  
control

# Proudly Made in Slovenia

Slovenia's geostrategic position at the crossroads of transport routes, favourable business environment, well developed infrastructure, long industrial tradition, personal qualities of its people explain why so many Slovenian companies and brands have a large footprint in international markets.

At Silco we are pleased to be amongst them. Despite the international nature of our team, our headquarters, R&D, training facilities and production are located in Slovenia.

## Abrasives

Our abrasives guarantee the best quality on the market while ensuring low labour and material costs as well as providing excellent sanding results.

### 3080-150 Ceramic Film Disc

Highly efficient ceramic sanding disc

- multi-hole pattern for dust-free sanding
- great for contour sanding
- fast cutting and extremely long service life

### 3060-150 Abra-Sil Gold

Top performance abrasive disc

### 3060-75 Abra-Sil Gold

Top performance abrasive disc

### 3060-200 Abra-Sil Gold

Top performance abrasive disc

### 3060-230 Abra-Sil Gold

Top performance abrasive sheet

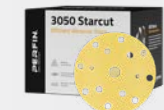

### 3060-420 Abra-Sil Gold

Top performance abrasive sheet

### 3060-115 Abra-Sil Gold

Top performance abrasive roll

### 3050 Starcut

Efficient abrasive disc

### 3070 Abra-Sil Green

Fine grit abrasive disc

### 4090 Aqua-Sil

Waterproof abrasive sheet

### 6160 Abra-Foam SBS

Foam backed abrasive roll

**3170 Abra-Foam Soft**  
Foam backed abrasive discs

**5610 Flap Disc**  
Abrasive flap disc

**3020 Ezee-Matt**  
Performance matting paste

**3540 Control Powder**  
Dry coat control powder

**2225 Dura-Pad Rubber**  
Rubber sanding block

**3750 Dura-Pad Sanding Block**  
Sanding block with dust extraction

**3090 Siflex**  
Flexible dry sanding system

- uniform scratch pattern
- for manual or machine treatment
- velcro fastening

**2270 Ezee-Flex Total**  
Premium scuffing-cleaning pad/roll

**2220 Dura-Pad Block**  
Manual sanding block

**3720 Dura-Pad Block**  
Manual sanding block

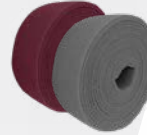

**2212 Dura-Pad Block**  
Sanding block with dust extraction

**3140 Trident**  
Fine finishing disc on foam backing

**3006 Cutting Wheel**  
Universal cutting disc

**2260 Ezee-Scuff**  
Scuffing-cleaning roll

**2223 Dura-Pad Block**  
Manual sanding block

**2208 Dura-Pad Block**  
Manual sanding block

**3310 Dura-Pad**  
Universal backing pad

**6115-6240 CSD Disc**  
CSD cleaning disc

**3420-3430 Tape-Off+**  
Label removal disc

**3550 Control Spray**  
Control black spray

**2207 Dura-Pad Block**  
Manual sanding block

**2211 Dura-Pad Block**  
Sanding block with dust extraction

**4630-4640 Interface Dura-Pad**  
Soft interface pad

**KEY TO KEY**  
in less than 60 minutes!

## SILCO FAST REFINISH

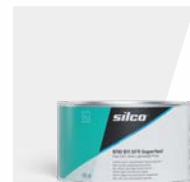

SFR products do not limit you to spot repairs. Their exceptionally long pot-life allows repairs of larger surfaces while still taking advantage of their extraordinary drying speed.

All SFR materials are subjected to extensive adhesion, quality, and long-term stability testing.

The only difference to the application method compared to using conventional materials is taking into account the significantly shorter drying times. This means you can get more work done in a shorter amount of time.

### Award-winning technology

Awards received by various institutions, including the most important one: A delighted painter and his satisfied client!

### 6110 B11 SFR Superfast

Fast, soft, semi-lightweight putty

- ready to sand after 8–10 minutes
- up to 50% faster than conventional putties
- adhesion to various substrates

### 6600 SFR Air-Bond

Fast, soft, light putty-bodyfiller

- ready to sand after 12–14 minutes
- specific weight 1.3 kg/L
- adhesion to wood and polyester laminates

### 7120 M12 SFR Superfast

HS ultra rapid surfacer

- very fast drying times
- ready to sand after 20 min (20°C)
- saving time and energy

### 7300 M30 Superfast Primer

2K high build primer filler spray

- very fast drying times
- ready to sand after 20 min (20°C)
- usable min. 30 days from activation

### 9600 SFR X-Cure

UHS 420 ultra rapid clear coat

- time to polish (20°C): 50–60 min
- time to polish (60°C): 3–5 min
- long potlife: 60 min

### 9006 SFR X-Cure Spray

2K ultra rapid clear coat

- time to polish (20°C): 90 min
- time to polish (60°C): 7–9 min
- long potlife: 6–8 hours

Time saving

Increased productivity

Energy saving

Higher earnings

## Putties – Bodyfillers

Specially selected to cover the market demands. Due to the latest technology, the products provide the best sanding results without paper clogging, leaving the surface smooth and non-porous.

the category page

**6110 B11 SFR Superfast**  
Fast, soft, semi-lightweight putty

- ready to sand after 8–10 minutes
- up to 50% faster than conventional putties
- adhesion to various substrates

**6600 SFR Air-Bond**  
Fast, soft, light putty-bodyfiller

**6090 B9 Multi-Azure**  
High performance semi-lightweight putty

**6130 B13 Multi-Green**  
High performance semi-lightweight putty

**6120 B12 Multi-Ultralight**  
High performance ultra-lightweight putty

**6080 B8 Multi-Light**  
Universal HP lightweight putty-bodyfiller

**6050 B5 Multisoft**  
Universal HP putty-bodyfiller

**210 Carfix Putty**  
Universal soft putty

**6140 B14 Multi-Fiber**  
Fiberglass reinforced putty

**6020 B2 Anti-Rust Putty**  
Rust prevention polyester putty

- good corrosion resistance on steel surfaces
- red oxide colour for better surface assessment
- no clogging after 20 minutes

**6150 B15 Multi-Alu**  
Putty with aluminium

**5920 Putty Dispenser**  
Manual dispenser for cartridges

**5061 Spreader Flex**  
Plastic spreaders

**8080 Sprayplast**  
2K polyester sprayable putty

**6040 Flexplast**  
Flexible putty

**6065–6067 Polyester Putty Hardener**  
Polyester putty hardener

**5062 Japan Spreaders**  
Metal spreaders

**3270 Fiberplast+**  
Glass fiber repair kit

## Primers

Selecting the right primer is essential to achieving perfect results. Our primer range offers excellent foundation for every type of paint job imaginable.

Scan the code to see  
the category page

### 7120 M12 SFR Superfast

HS ultra rapid surfacer

- very fast drying times
- ready to sand after 20 min (20°C)
- saving time and energy

### 7300 M30 Superfast Primer

2K high build primer filler spray

### 9900 M9 Surfacer

Universal HS primer filler

### 7080 M8 Acryfill

Universal HS primer filler

### 7100 M10 E-Primer

Wet-on-wet & e-coat primer

### 7025 DTP Primer

Direct-to-plastic 1K primer

- bonding on untreated, solvent resistant plastics
- should be applied as a wet-on-wet primer
- overpaintable in 10 minutes from application

### 7026 DTP Primer Spray

Direct-to-plastic 1K primer

### 1818 Fast-Prime

High build primer filler spray

### 7040 M4 1K Universal Primer

High build acrylic primer filler

### 7020 M2 Compact

Rapid 1K acrylic primer filler

### 7220 M22 Wash Primer

2K chromate-free wash primer

### 4110 Etch-Prime

Etch primer spray

### 2110 Epo-Prime

2K high build epoxy primer

### 2100 Epo-Prime

1K epoxy primer spray

### 4020 Z-Prime

Zinc protection spray

### 4025 Zn-Al Prime

Zinc-alu galvanizing spray paint

### 7015 Adhesion Promoter

1K plastic primer

### 7014 Adhesion Promoter

1K plastic primer spray

### 7035 4Plastic

Adhesion additive for 2K primer fillers

## Masking Products

Silco offers a complete range of products for masking in every part of the painting process. Whether you want to protect your entire spray booth or simply mask a crucial detail, we are positive our lineup will hold up to your expectations.

Scan the code to see  
the category page

**4100 Aquatop**  
Masking film for covering damp vehicles

**4500 Easy-Mask**  
Masking film

**1030 Paper-Mask Premium**  
Kraft masking paper

**1680 Fine-Line Tape**  
Flexible masking tape

**4200 Top-Mask**  
Masking film

**5152 Film Cutter**  
Film cutter

**1020 Poly-Mask**  
Plastified masking paper

**1040 Foam-Mask**  
Masking foam

**1060 Foam-Edge**  
Premium masking foam

**1080 Q-Edge Foam Tape**  
Flexible no edge masking foam tape

**1090 T-Edge Foam Tape**  
No edge masking foam tape

- temperature resistant up to 95°C
- soft paint transition
- adjustable length and fingertip depth

**7660 Mount Tape**  
Heavy duty adhesive tape

**3857 S-Cover**  
Protective car seat covers

**1560 Flex-Tape**  
Flexible masking tape

**2160 X-Mask**  
Polyester edge masking tape

**1980 Dura-Tape WR**  
Waterproof masking tape  
100°C

**1880 Dura-Tape Premium**  
Premium masking tape 100°C

**1780 Dura-Tape**  
Professional masking tape  
80°C

**1480 Combo-Tape**  
Double-sided auto masking tape

- protects vehicle interior from overspray
- easy to remove without breaking
- does not leave any residues

## Clear Coats & Paints

The final step in the refinishing process is what will give your project that special touch leaving your customers in awe. Clear coats are what Silco is best known for, and it is with a good reason. Our R&D department works tirelessly so we can produce some of the finest and fastest clear coats on the market.

Scan the code to see  
the category page

### 9600 SFR X-Cure

UHS 420 ultra rapid clear coat

- time to polish (20°C): 50–60 min
- time to polish (60°C): 3–5 min
- long potlife: 60 min

### 9006 SFR X-Cure Spray

2K ultra rapid clear coat

### 9100 X10 System Clear

UHS 420 wide range clear coat

### 9130 X13 Spectrum

UHS 420 rapid clear coat

- air drying (20°C): 2–6 h
- forced drying (60°C): 10–20 min
- long potlife: >60 min

### 9120 X12 Supreme

UHS 420 mirror look clear coat

### 9060 X6 UHS Clear Coat

UHS 420 wide range clear coat

### 9090 X9 Superfast

HS ultra rapid clear coat

### 9050 X5 HS Clear Coat

HS high gloss clear coat

### 9040 X4 HS Clear Coat

HS high gloss clear coat

### 9400 X40 Semi Gloss

HS semi gloss clear coat

### 9410 X41 Matt

HS matt clear coat

### 9004 Clear Finish

1K glossy acrylic clear coat

### 9700 X70 DTM

HS enhanced adhesion coat

### 9710 X71 DTM Matt

HS enhanced adhesion matt coat

### 9001 Bedliner

2K heavy-duty protective coating

black

### 9002 Bedliner

2K heavy-duty protective coating

tintable

### 7170 Black Finish

Black matt paint

### 9005 Black Finish Spray

Acrylic black matt paint

### 6116 B-Paint

Bumper paint

anthracite, black

### 9008 B-Paint Spray

Bumper paint

black

### 9009 Rim Restore

Silver wheel paint

### 7007 Rim Restore Spray

Silver wheel paint

### 1072 HT Paint Spray

Thermo paint 600°C

silver, black

### 9584 Prefill DME

Prefill spraycan DME

# UniMix 20

## Commercial vehicle mixing system

Evolution of UniMix 20 commercial vehicle mixing system delivers many additional features making the system even more versatile.

Wider range of tinters allows mixing more than 30.000 formulations which are also available as colour cards in extended colour box. These colour cards can also be recognized by a portable colour matching sensor 94.021 Diamond.

With UniMix 20 tinting system approx. 4.000 formulations are available also for automotive section with a dedicated automotive colour box.

A broad range of UniMix 20 binders allows mixing of different types of coatings; from primers to topcoats and direct-to-metal coatings.

## Polishing System

It does not matter whether you want to give your car a touch-up after a thorough wash, or are in the final stages of a paint repair job. Silco polishing system offers a comprehensive lineup of products needed to achieve a high gloss, defect free finish every time.

Scan the code to see  
the category page

### 3200 Moxi-Blue

One-step polishing compound

- polishing in one step
- for machine or manual polishing
- removal of P1200 sanding paper scratches

### 3205–3215 Moxi Pads

Polishing pads

### 3280 Finish Inspection

Polish inspection cleaner

- removes grease and dust
- allows an objective assessment of surface quality

### 8067 Microfibre Cloth

Seamless double-sided microfibre cloth

### 3201 Moxi

One-step polishing compound

### 3202 Moxi AH

Anti-hologram compound

### 3250 Moxi Wool Pad

Lambskin polishing pad

### 8055 Wax+

Polymeric protection in spray

### 3125 Backing Plate

Backing plate

### 6180 Fine-Cut

Abrasive knitted fabric discs on foam backing

**3055 Poli-Clay**  
Cleaning clay disc

**8110 Clay Bar Coarse**  
Synthetic cleaning clay for hard clear coats

**8120 Clay Bar Fine**  
Synthetic cleaning clay for soft clear coats

**2555 Ultra-Soft**  
Soft polishing cloth

## Bonding & Sealing Products

Our lineup of bonding and sealing products consists of solutions that excel in the challenging conditions that are an everyday part of the automotive world. Silco sealants and bonding products are characterized by quality performance combined with fast drive-away times.

Scan the code to see  
the category page

### 7005 Underbody Bitumen Spray

Bitumen underbody protection

### 7010 Underbody Bitumen

Bitumen underbody protection

### 2005 Underbody Elastil Spray

Stone chip protection spray  
*black, white*

### 2040 Stone Chip Guard

Overpaintable underbody protection

- strong adhesion on raw or galvanized metal or old underbody protection
  - protection against stone chips, salt, etc.
- black, white, grey*

### 1170 Sound-Deadening Pads

Flexible, laminated bitumen-elastomere pads

### 3005 Cavity Coat Spray

Cavity protection

### 3010 Cavity Coat

Cavity protection

### 2006 UBS Gun

High quality gun with pattern regulation

### 5050 Power-Fix

2K PU adhesive

### 5080 Multi Seal MSP

MSP seal & bond mastic

### 5030 Power-Seal

PU adhesive sealant

### 1410 Seam-Seal

Brushable seam sealer

### 3109 Double-Sided Mount Tape

High strength acrylic mounting tape

### 1111 X-Glue

Low viscosity CA adhesive

### 1643 Activator

Activator for CA adhesive

### 4905 Application Gun

Application gun for 2K PU adhesive

### 5530 Seal Master Accu

Accu gun for cartridges

### 2860 Manual Sealant Gun

Quality dispensing gun for cartridges and soft-pack

### 3002 Proseal

High temperature silicone sealant

### 2552 Liquid Metal

2K adhesive

### 5090 Cleaner - Activator

Cleaner - activator

### 4515 Fast 30 UHM

UHM primerless windshield adhesive

- fast and safe drive-away time on vehicles fitted with airbags
- resistant to ageing and weathering

**5082 Adhesion Primer**  
Black adhesion primer

**5701 Applicator Brush**  
Applicator brush

**5025 Wire Handles**  
Handles for cut-out wire

**5020 Braided Wire**

**5040 Square Wire**

**5035 Inserting Tool**

**5015 Super Scraper**  
Pinchweld preparation tool

**5065 Wide Scraper**  
Pinchweld preparation tool

**2340 Vacuum Cups**  
Double suction pads

## Bodyshop Consumables

Stocking up on your consumables inventory should not take up any more time than necessary. Our selection includes everything needed to fulfill your bodyshop demands without having to compromise.

**3030 Soft-3**  
Soft 3-ply cleaning paper towel

**9515 Anti-Sil**  
Antisilicone degreaser

**9525 Degreaser 25**  
High strength degreaser

**8515 WB Silicone Remover**  
Waterbased degreasing cleaner

**5203 Anti-Sil Sprayer**  
Antisilicone sprayer

**2205 Towel TNT**  
Antisilicone cleaning towel

**2531 Blue-Tex**  
Antisilicone towel

**1206 Flat-Rag**  
Tack rag

**2206 Wave-Rag**  
Wave tack rag

**2210 WB-Rag**  
Tack rag WB

- zero transfer of resin over surface
- eliminates imperfections and dust particles
- soft structure and high dust absorption power

**2215 Anti-Static Wipe**  
Antistatic degreasing wipe

**5555 Nitro Thinner**  
Nitro thinner

**5505 Solvent Cleaner**  
All purpose solvent cleaner

**7030-7050-7070 Maxx Thinner**  
Premium acrylic thinner

**5504 Universal Thinner**  
Universal PU grade thinner

**5506 Universal Hardener**  
HS universal acrylic hardener

**8510 Thinner WB**  
Universal waterbase thinner

**2115 Epoxy Thinner**  
Premium epoxy thinner

**6070 Fade-Thinner**  
Fade out thinner

**6075 Fade-Thinner Spray**  
Fade out thinner spray

**3130 Accelerator**  
2K accelerator

**2403 Mix-Sticks**  
Plastic mixing sticks

**2404-2408 Mix-Sticks**  
Aluminium mixing sticks

**8053 Metal Paint Cans**  
Metal paint cans

**1846-1851 Mix-Cup**  
Paint mixing cup

**2930 Soft-Cup**  
Paint mixing cups

**2950 Twist-Cup**  
Flexible paint cup system

**3365 Micro Tip**  
Applicator brush

**3366-3368  
Touch-Up Bottle**  
Bottle for paint

**4220 Paint Strainers**  
Paint strainers

**2080 Anti-Dust**  
Dust and overspray protection

**2300 Cabin Floor Filter**  
Dust and overspray protection

**3372 Gravity cup filter**  
Gravity cup filter

**3330 Dust Needle**  
Dust needle

**2401 Testcolor Cards**  
Testcolor cards

**1085 Cabin Film**  
Film protection for paintbooth walls

- 4 pre-taped drop film layers
- temp. resistant up to 140°C
- corona treatment

## Tools & Accessories

Quality tools that you can rely on are a must while trying to keep up with deadlines and demanding customers. Our selection offers everything you need from starting with a project to handing a satisfied customer their car keys back while keeping cost to a minimum.
